

Smart Video Intercom

for K12 School Districts

A modern solution for visitor management and access control to your school's entrance, remote locations, and amenities.

FEATURES FOR K12 ADMIN

Facility Lockdown

In the case of emergency, lockdown all LobiBox-enabled entrances with a click through a remote dashboard.

Scheduled Access & Features

Create custom schedules for all features and users, ensuring the appropriate personnel have access during working hours.

Remote Management

Manage the system from a mobile device or desktop anywhere, so one person can manage access and monitor activity at multiple locations.

Provide Remote Access via Video Intercom

Provide remote access to building entrances or off-site locations from a smartphone or desktop app.

Issue Staff and Visitor Access Codes

Issue custom, self-expiring visitor access codes to visitors, delivery drivers, or vendors.

Manage Facilities from a Central Dashboard

Manage all locations from a central dashboard, including granting access and lockdowns.

Visually Verify Guests Before Granting Access

See a snapshot of the person at the door or tap into a video call to verify a visitor.
