

LOBIBOX FOR COWORKING SPACES

The **MODERN SOLUTION** for visitor management and access control

SAFETY & SECURITY

Video intercom allows your tenants to see who is at the door and provides you a video record of that transaction.

Unique codes ensure no shared access codes, granting admin more accurate insights into who is on property.

Video intercom reduces risk of unwarranted visitors by requiring verification before being granted access.

TENANT RETENTION & ACQUISITION

Increase tenant retention by elevating sense of security and allowing tenants to manage their guests' and own access conveniently through the mobile app.

Investing in high-tech property amenities attracts new residents by valuing security and tenant experience.

COST-SAVINGS

LobiBox records images of all event transactions, reducing the risk of vandalism and theft.

LobiBox is compatible with existing access control systems and creates a complete visitor management system.

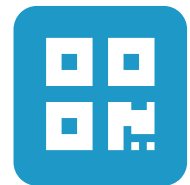

High-tech amenities increase property value, allowing property managers to charge higher rent rates.
