Lockdown**

What is LobiCom?

LobiCom is an access control security system that grants administrators full control over all secured entry points by providing video connectivity, access control, live statuses, and real-time event monitoring.

Manage Multiple Sites Remotely

Monitor a dashboard of all LobiBox devices, allowing security personnal full oversight with the ability to assist users remotely.

Monitor Event Activity

View a live event feed of all transacttions, such as card access swipes, video calls, and remote unlocks.

Emegency Lockdown

Quickly disable visitor access or lock down access to the entrances entirely.
