Station**

Made with the admin in mind

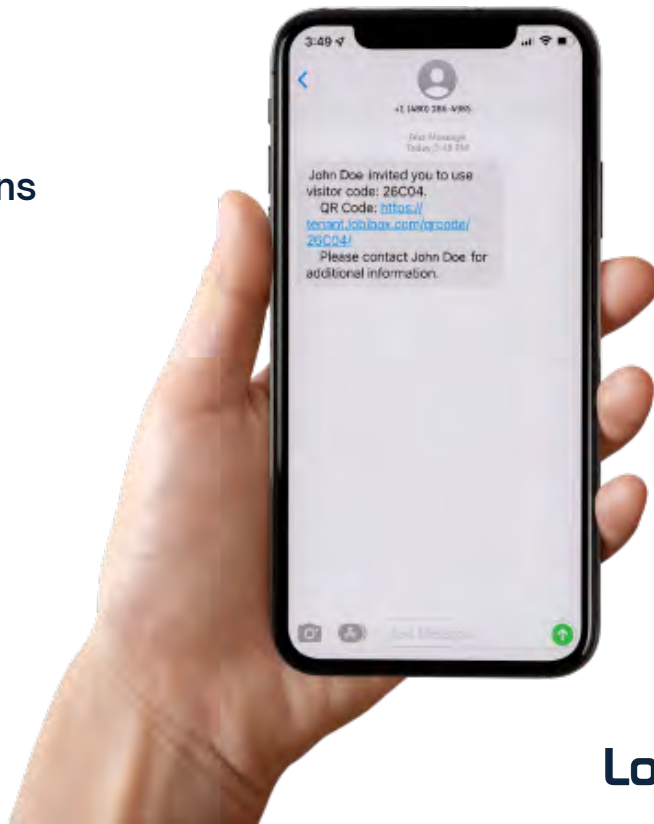

The LobiBox Admin Portal makes it easy for administrators to configure the LobiBox system to the needs of the property.

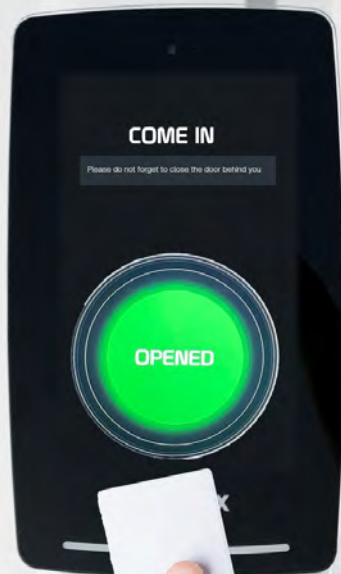

- Set custom messaging on the main screen
- Set custom tenant permissions
- Configure access control levels
- Monitor & track event history
- Manage tenants & devices remotely

Simplify visitor access

Tenants can individually manage their guests through the mobile app, with admin maintaining full oversight of visitor access codes through the admin portal.

- Admin can customize visitor code permissions
- Access codes automatically expire
- Store event images & videos
- One-time use & delivery codes

Integrated Access Control

LobiBox can act as a standalone access control system or easily integrates with existing hardware through the LobiBox Door Controller board, so your residents can keep their same gate transponders.

**Integrated
Card Reader**

125kHz

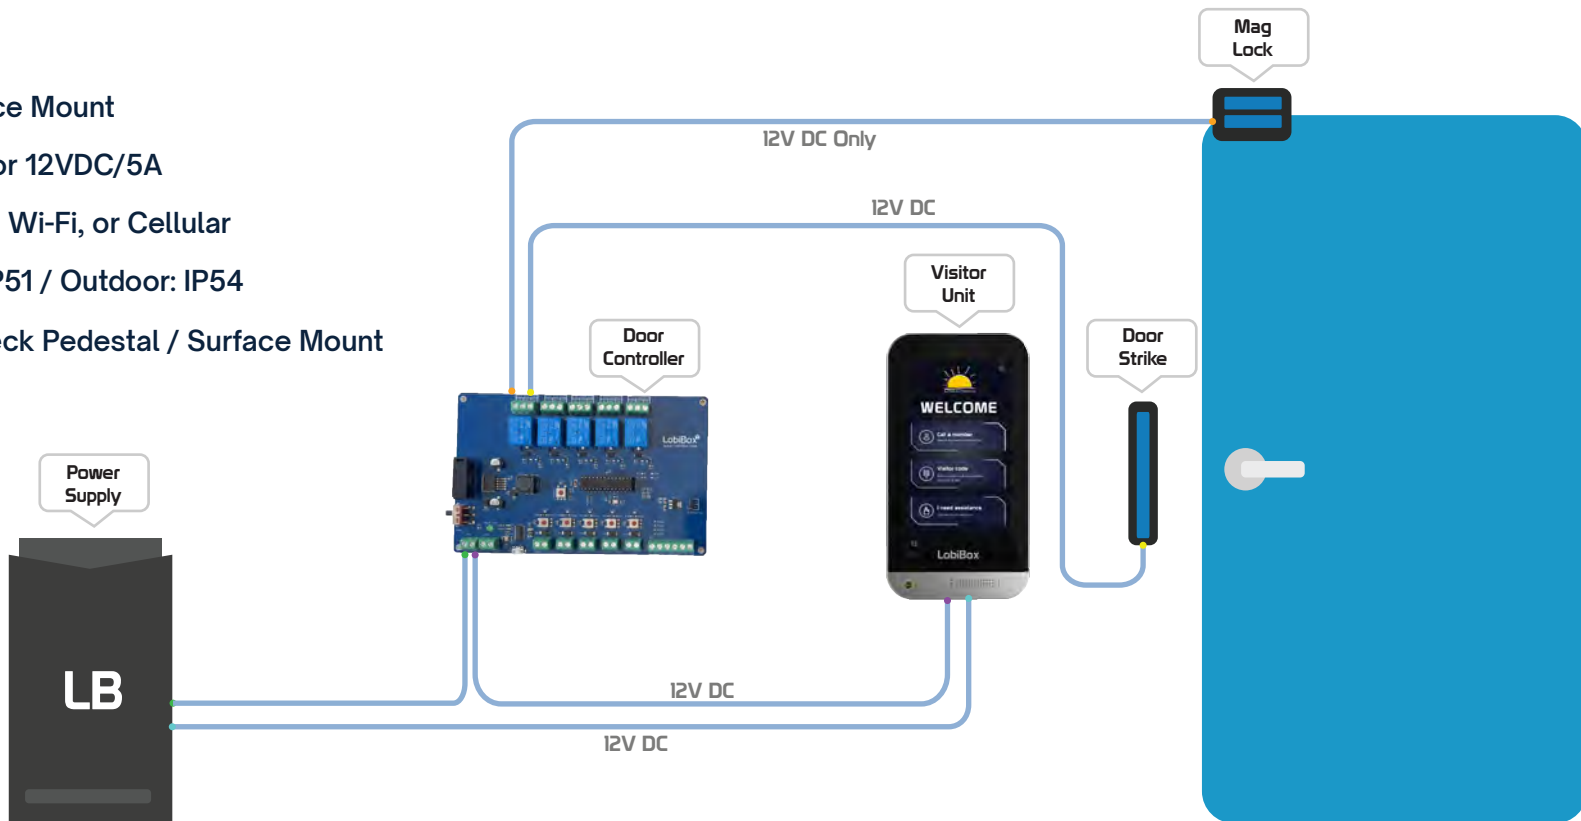

**Door
Controller**

1-Door / 2-Door

Why LobiBox?

Local Provider & Local Support

LobiBox is headquartered in Phoenix with it's entire support team being locally-based.

Competitive Pricing Model

Both hardware and software are less than half the cost of leading competitors.

Customizable System

The screen and all tenant settings are completely customizable to your needs.

Welcoming Feedback

We welcome your thoughts as we plan our roadmap & future features.

Modern Interface

The bright LobiBox interface creates a luxury welcome at your community's entrance.
